PREFACE

Taylor's Analyzed Citations of the New York Miscellaneous Reports have been used by the lawyers, bench and public law libraries of the State of New York since 1902. This was the first work of the editor and compiler of Analyzed Citations published in the serial, cumulative form, and the legal profession has shown its preference for this method by demanding and adopting a method which will save the time of the busy lawyer in preparing cases on appeal to the higher courts. This bound volume edition is continued with cumulative supplements in February, July and November and shows the determination of the case in the court of last resort, either as affirmed, reversed, modified, overruled, distinguished, etc., and subsequent citations of the case in all the courts of record in this State.

The decisions of Miscellaneous cases going up from the Appellate Division to the Court of Appeals are uniformly entered as appeals from the Appellate Division to the Court of Appeals.
